Dolanji, September 13, 2006

Dear Mr. Vysoky,

With great enthusiasm we have installed the Narasan energising device into the main water pipe of our Bon Children's Home.

We have proofed your Narasan device with our own way of manner. The mode of action complies absolutely with your explanations of the improvement of water and all our children, our staff and we monks feel the energetic power in the drinking water.

We wish that many other people can make this rare experience!

All the best for this very old nut new technology!

Lha-Tri Kenpo Nyima Dakpa Rinpoche
